

new online presentations on GRP

## LAMILUX Academy webinars enter a new round

This year, the GRP market leader is once again offering various instructive webinars from the LAMILUX Academy. Throughout 2024, interested parties will have the opportunity to find out about GRP solutions from LAMILUX Composites in a total of 7 different online lectures. Besides product innovations and industry-specific knowledge, the GRP experts will also provide participants with useful information on the processing and handling of glass fibre-reinforced plastics.

Each webinar has a specific focus that is presented in an easily understandable way. Experts from various departments at LAMILUX Composites have once again been invited as speakers this year.

Participants can look forward to the following LAMILUX Academy webinars:

### **LAMILUX FireShield® – the toolbox for fire-retardant GRP solutions**

*Thursday, 29.02.2024 – 9:00 am (CET)*

Speaker Sascha Oswald explains which flame-retardant GRP solutions LAMILUX FireShield® offers and where LAMILUX FireShield® can be used.

e-Mail: markus.baecher@lamilux.de

### **Prefabricated construction - how composite materials will influence the processes of the future**

*Tuesday, 23.04.2024 - 9:00 am (CET)*

This webinar is all about GRP for serial construction. Speaker Jörn Müller will show which areas of application are suitable for the use of GRP, which LAMILUX products are used and what advantages they bring.

### **Tips for the optimal processing of glass fiber reinforced plastics (GRP)**

*Thursday, 06.06.2024 - 9:00 am (CET)*

What is GRP and what properties does it have? How can GRP be processed and further processed? How is GRP cleaned and maintained? What do you have to consider when working with GRP? All these questions will be answered by speaker Daniel Hauenstein

### **Preview Caravan Salon Düsseldorf 2024 - New appearance and maximum value retention - The latest generation of motorhome side walls**

*Thursday, 25.07.2024 - 9:00 a.m. (CET)*

Attention motorhome owners: This webinar is all about GRP in the caravan industry. Speaker Sascha Oswald will show which areas of application are suitable for the use of GRP in caravans, which LAMILUX products are used and what advantages LAMILUX GRP offers in the caravan industry? A look at the Caravan Salon in Düsseldorf rounds off the online presentation.

### **Preview IAA Transportation Hanover 2024 - Lightweight and robust materials for the bus and commercial vehicle industry**

*Tuesday, 27.08.2024 - 9:00 am (CET)*

In this webinar, speaker Sascha Oswald explains which areas of application in commercial vehicles and buses are suitable for the use of GRP, which LAMILUX products are used there and what advantages they bring. A look at the IAA Transportation in Hanover rounds off the online presentation.

### **Global container logistics - How the transport of containers is revolutionizing global trade**

*Tuesday, 05.11.2024 - 9:00 am (CET)*

Which transport options are available? Which areas of application in the tank container industry are suitable for the use of GRP? Which LAMILUX products are used in the tank container industry and what advantages do they offer? All these questions will be answered by Colin Blaschke.

### **Lightweight construction, functional integration and robustness - lightweight construction in transport logistics**

*Thursday, 05.12.2024 - 9:00 am (CET)*

The last webinar in this series answers the following questions: Which areas of application are suitable for the use of GRP? Which LAMILUX products are particularly used for lightweight construction? What advantages does LAMILUX GRP offer in lightweight construction? The speaker in this online lecture is Sascha Oswald.
